Dear Julian,

Re : Brett Tickner – Site Supervisor – Lot 134 Countryside Drive Two Rocks

I would like to take this opportunity to say “Thank You” to The Rural Building Company for the construction of our home.

This is the first house that we have built and thanks to the total professionalism and curtsey of your site supervisor Brett Tickner this has been accomplished with little or no hassles.

As with most things nowadays once you have signed a contract with a company you hear all sorts of horror stories. I would like to say that this has been proven totally wrong in this case. We have nothing but praise for the job that Brett has done and you know you have a great guy supervising your home construction when you hear the trade people talking his praise too.

I would also like to thank Rosemary Costen for all her support and laughter, both have made this a very pleasant and wonderful experience. Yes I would do it again!

Yours sincerely,

Wendy Noone
